

SCOOTER FULL SYN

100% SYNTHETIC 4-STROKE ENGINE OIL

DESCRIPTION:

Full-synthetic 4-stroke engine oil designed to ensure optimum protection, peak performance and improved fuel economy. Unique organic friction modifiers increase power output and efficiency while reducing engine operating temperatures. The advanced synthetic base oils work synergistically with the robust additive system to resist breakdown and prevent engine wear, ensuring adequate protection for stop-and-go traffic throughout the life of the scooter. Exceeds the requirements of API SL / JASO MB.

FEATURES & BENEFITS:

- Designed for daily scooter use
- Superior protection for all conditions
- Reduces engine temperatures while increasing power & efficiency
- World-class additive system and synthetic base oils combine to minimize oxidation and wear
- Increases durability and extends engine life
- Exceeds API SL and JASO MB specifications

APPLICATIONS:

For all air and water-cooled 4-stroke scooter engines. Designed for everyday use. NOT recommended for use in motorcycles with wet clutches.

TECHNICAL DATA

SPECIFICATION	TEST METHOD	10W-40
APPEARANCE	VISUAL	Amber
VISCOSITY @ 40°C (cSt)	D445	93.5
VISCOSITY @ 100°C (cSt)	D445	14.3
VISCOSITY INDEX	D2270	158
FLASH POINT (°C)	D92	249
POUR POINT (°C)	D97	-21
DENSITY @ 15 °C (g/ml)	D4052	0.853
